Good afternoon Don,

Arkansas has developed a fairly extensive web based system allowing access to the permit application, permit / fact sheet and other technical documents. It will be easier for you to access the website and you can peruse and download whatever documents you may wish to look at. If you have any problems, let me know and I will send what documents i have.

Mike / Jane -

Per Claudia's suggestion, I would sincerely appreciate receiving an electronic copy of the permit and fact sheet, and any recent engineering study(ies) of the process operations and wastewater treatment system

at this mill. Moreover, I would also appreciate receiving any document that summarizes the ongoing UAA study for Coffee Creek / Mossy Lake. Thanks very much for your help,

Don
